

CASARENA

Casarena is elevating the Argentine wine industry with their discovery of new terroirs and single vineyard wines from some of the rarest vineyards in the world.

Casarena wines are Certified Sustainable by the Bodegas de Argentina (BDA) sustainability code and are certified vegan.

Casarena focuses on all aspects of understanding & caring for the environment:

- Rational use of natural resources & paying close attention to waste / discharges.
- Intensive soil study and its role in climate change.
- Using dry goods that produced using recycled materials (carton, paper & glass).
- Caring for the health & wellbeing of society.

"I am convinced that the way to achieve sustainable and quality viticulture is through the generation of knowledge, innovation and development and its subsequent application to the industry. It is necessary to obtain wines of unique quality with a commitment to sustainable

—WINEMAKER MARTINA GELEANO

DIGGING DEEPER INTO CASARENA

ADVANCED SOIL RESEARCH

- Casarena has done intensive soil research on their vineyard sites that are unlike any other terroir found in Lujan de Cuyo. Their research is ongoing and revelatory, as the vines continue to produce award-winning, expressive wines.

HISTORICAL LANDMARK

- The Casarena winery was built in 1937 and sits in the heartland of Mendoza's historical winemaking region, Lujan de Cuyo.
