WINERY OVERVIEW

Val des Rois translates to “Valley of the King” and is nestled in the hills outside of Valréas in Southern Rhône. Valréas is one of the rare areas in the south producing a fresh style of Côtes du Rhône Villages. The pure limestone slopes are found among the rolling hills, peaking at over 1300 feet elevation. Through a combination of organic farming and cool climate fruit, Val des Rois wines reflect balance and purity at the highest caliber.
