## TASTING NOTES AND PAIRINGS

## WINERY OVERVIEW

Casa Silva is a 5th generation, family-run winery and the most awarded Chilean winery in the 21st century.

The Silva family pioneered grape growing in the Colchagua Valley with the first vineyards back in 1892. Their cellar is the oldest in the valley, yet they strive to innovate in their vineyards and to pioneer new terroirs in the Colchagua Valley. They are paving the way for the Chilean Carmenerre varietal by investing in research studies in their vineyards to study Carmenerre clones and its microterroirs.
